INDEPENDENT AUDITORS' REPORT

Hector H. Balderas New Mexico State Auditor The Office of Management and Budget The Board of Education Alamogordo Municipal School District No. 1 Alamogordo, New Mexico

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, the aggregate remaining fund information, and the budgetary comparison for the general fund of Alamogordo Municipal School District No. 1 (the District), as of and for the year ended June 30, 2013, and the related notes to the financial statements which collectively comprise the District's basic financial statements as listed in the table of contents. We also have audited the financial statements of each of the District's nonmajor governmental funds, the combining financial statements for the general fund, and the budgetary comparisons for the major capital projects fund, debt service fund, and all nonmajor funds presented as supplementary information, as defined by the Governmental Accounting Standards Board, in the accompanying combining and individual fund financial statements as of and for the year ended June 30, 2013, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2013, and the respective changes in financial position thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of each nonmajor governmental fund and the combining financial statements for General Fund of the District as of June 30, 2013, and the respective changes in financial position, thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America. In addition, in our opinion, the budget comparisons referred to above present fairly, in all material respects, the respective budgetary basis of accounting as prescribed in the New Mexico Administrative Code, as more fully described in Note 2 to the financial statements, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Management has omitted the *Management Discussion and Analysis* that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the District's financial statements, the combining and individual fund financial statements, and the budgetary comparisons. The Schedule of Expenditures of Federal Awards as required by Office of Management and Budget *Circular A-133*, *Audits of States*, *Local Governments*, introductory section and Supporting Schedules I through IV required by 2.2.2.NMAC are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards and Supporting Schedules I through IV required by 2.2.2 NMAC are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with the auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards and Supporting Schedules I through IV required by 2.2.2 NMAC are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 1, 2013 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Alamogordo Municipal School District No. 1 Governmental Funds

Reconciliation of the Balance Sheet to the Statement of Net Position June 30, 2013

Amounts reported for governmental activities in the Statement of Net Position are different because:

| Fund balances - total governmental funds | \$ 20,393,272 |
|--|---|
| Capital assets, net of accumulated depreciation, used in governmental activities are not financial resources and, therefore, are not reported in the funds | 67,209,448 |
| Other noncurrent assets are not available to pay for current period expenditures and therefore, are deferred in the funds: | |
| Bond issuance costs | 364,513 |
| Delinquent property taxes not collected within sixty days after year end are not considered "available" revenues and are considered to be deferred revenue in the fund financial statements, but are considered revenue in the Statement of Activities | 339,104 |
| Liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds: | |
| Accrued compensated absences not due and payable Accrued interest payable Bond premiums Bonds, loans and capital leases payable | (191,688) (349,986) (428,708) (32,405,808) |
| Total net position - governmental funds | \$ 54,930,147 |

Alamogordo Municipal School District No. 1 Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended June 30, 2013

Amounts reported for governmental activities in the Statement of Activities are different because:

Net change in fund balances - total governmental funds

\$ 3,106,326

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense:

| Capital expenditures | 4,062,412 |
|---|-------------|
| Depreciation expense | (3,356,500) |
| Book value of capital assets disposed | (293) |
| Book value in excess of fair market value of land exchanged | (71,997) |

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenue in the funds:

| Change in deferred revenue related to property taxes receivables | 26,020 |
|--|----------|
| Change in deferred revenue related to grant receivables | (67,571) |

The issuance of long-term debt (e.g. bonds, notes, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities:

| Original bond premiums | (125,000) |
|--|-------------|
| Current year amortization of bond premium | 47,741 |
| Original bond issuance cost | 55,772 |
| Current year amortization of bond issuance cost | (50,590) |
| Bond proceeds | (5,000,000) |
| Increase in accrued compensated absences not due and payable | (14,179) |
| Increase in accrued interest payable | (32,303) |
| Principal payments on bonds | 3,305,000 |
| Principal payments on capital leases | 160,838 |
| | |

Change in net position of governmental activities \$ 2,045,676

Alamogordo Municipal School District No. 1 Notes to Financial Statements June 30, 2013

NOTE 1. Summary of Significant Accounting Policies

Alamogordo Municipal School District No. 1 "the District" is a special purpose government corporation governed by an elected five-member Board of Education. The Board of Education is the basic level of government, which has oversight responsibility and control over all activities related to the public school education of the City of Alamogordo. The District is responsible for all activities related to public elementary and secondary school education within its jurisdiction. The District receives funding from local, state, and federal government sources and must comply with the requirements of these funding source entities.

The School Board is authorized to establish policies and regulations for its own government consistent with the laws of the State of New Mexico and the regulations of the Legislative Finance Committee. The School Board is comprised of five members who are elected for terms of four years. The District operates sixteen schools within the District with a total enrollment of approximately 6,000 pupils. In conjunction with the regular educational programs, some of these schools offer special education. In addition, the School Board provides transportation and school food services for the students.

This summary of significant accounting policies of the District is presented to assist in the understanding of the District's financial statements. The financial statements and notes are the representation of the District's management that is responsible for the financial statements. The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units.

During the year ended June 30, 2013, the District adopted Governmental Accounting Standards Board (GASB) Statements No. 60 through 63. GASB Statement No. 60, Accounting and Financial Reporting for Service Concession Arrangements. The District does not have any Service Concession Arrangements. GASB Statement No. 61, The Financial Reporting Entity: Omnibus—an amendment of GASB Statements No. 14 and No. 34, modifies certain requirements for inclusion of component units in the financial reporting entity. GASB Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements, which incorporates into the GASB's authoritative literature certain accounting and financial reporting guidance that is included in FASB and AICPA Pronouncements issued on or before November 30, 1989, which does not conflict with or contradict GASB pronouncements. GASB Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, provides financial reporting guidance for deferred outflows of resources and deferred inflows of resources

A. Financial Reporting Entity

In evaluating how to define the District, for financial reporting purposes, management has considered all potential component units. The decision to include any potential component units in the financial reporting entity was made by applying the criteria set forth in GASB Statement No. 14, as amended by GASB Statement No. 39 and GASB Statement No. 61. Blended component units, although legally separate entities, are in substance part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

Alamogordo Municipal School District No. 1 Notes to Financial Statements June 30, 2013

NOTE 1. Summary of Significant Accounting Policies (continued)

A. Financial Reporting Entity (continued)

The basic-but not the only-criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the government and/or its citizens.

A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the government is able to exercise oversight responsibilities. Finally, the nature and significance of a potential component unit to the primary government could warrant its inclusion within the reporting entity.

Based upon the application of these criteria, the District has no component units, and is not a component unit of another governmental agency.

B. Government-wide and fund financial statements

The government-wide financial statements (the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. The District does not have any *business-type activities*.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes, state equalization, and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the *economic resources* measurement focus and the accrual basis of accounting, as is the fiduciary fund financial statement. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Alamogordo Municipal School District No. 1 Notes to Financial Statements June 30, 2013

NOTE 1. Summary of Significant Accounting Policies (continued)

C. Measurement focus, basis of accounting, and financial statement presentation (continued)

Governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period, subject to the availability criterion. Sales and use taxes are classified as derived tax revenues and are recognized as revenue when the underlying exchange takes place and the revenues are measurable and available. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met, subject to the availability criterion.

All other revenue items are considered to be measurable and available only when cash is received by the government.

The District reports the following major governmental funds:

The *General Fund* is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. Revenues are provided by the District's school tax levy, state equalization and transportation funds, state instructional material allocations, and earnings from investments. Expenditures include all costs associated with the daily operations of the school except for those items included in other funds. The General Fund includes the *Pupil Transportation Fund*, which is used to account for transportation distribution received from the New Mexico Public Education Department which is used to pay for the costs associated with transporting school age children. It also includes the *Instructional Materials Fund*, which is used to account for the monies received from the New Mexico Public Education Department for the purposes of purchasing instructional materials (books, manuals, periodicals, etc.) used in the education of students.

The *Bond Building Capital Projects Fund* is used to account for bond proceeds plus any income earned thereon. The proceeds are restricted for the purpose of making additions to and furnishing of school buildings, or purchasing or improving school grounds or any combination thereof, as approved by the voters of the District. Authority for the creation of this fund is the New Mexico Public Education Department.

The *Debt Service Fund* is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs. Authority for the creation of this fund is the New Mexico Public Education Department.

Alamogordo Municipal School District No. 1 Notes to Financial Statements June 30, 2013

NOTE 1. Summary of Significant Accounting Policies (continued)

C. Measurement focus, basis of accounting, and financial statement presentation (continued)

Additionally, the District reports the following agency fund:

The *Fiduciary Funds* account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Assets, Liabilities and Net Position or Equity

Deposits and Investments: The District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the District to invest in Certificates of Deposit, obligations of the U.S. Government, and the State Treasurer's Local Government Investment Pool (LGIP). The LGIP operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

Restricted Assets: The Debt Service Fund is used to report resources set aside for the payment of long-term debt principal and interest.

Receivables and Payables: Interfund activity is reported as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental funds are netted as part of the reconciliation to the government-wide financial statements.

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

The District receives monthly income from a tax levy in Otero County. The funds are collected by the County Treasurer and are remitted to the District the following month. Under the modified accrual method of accounting, the amount remitted by the County Treasurer in July and August 2013 is considered "measurable and available" and, accordingly, is recorded as revenue in the governmental fund statements during the year ended June 30, 2013. Period of availability is deemed to be sixty days subsequent to year end.

Certain Special Revenue funds are administered on a reimbursement method of funding; other funds are operated on a cash advance method of funding. The funds incurred the cost and submitted the necessary request for reimbursement or advance, respectively.

NOTE 1. Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities and Net Position or Equity (continued)

Inventory: The District's method of accounting for inventory is the consumption method. Under the consumption approach, governments report inventories they purchase as an asset and defer the recognition of the expenditures until the period in which the inventories actually are consumed. Inventory is valued at cost and consists of U.S.D.A. commodities and other purchased food and non-food supplies. The cost of purchased food is recorded as an expenditure at the time individual inventory items are consumed.

Inventory in the Special Revenue Funds consists of U.S.D.A. commodities and other purchased food and non-food supplies. Commodities consumed during the year are reported as revenues and expenditures; unused commodities are reported as inventories.

Capital Assets: Capital assets, which include property, plant, and equipment, are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Information Technology Equipment including software is being capitalized and included in furniture, fixtures and equipment in accordance with NMAC 2.20.1.9 C (5). The District was a Phase II government for purposes of implementing GASB Statement No. 34 however, the District does not have any infrastructure assets to report.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Library books are not capitalized because they are considered to have a useful life of less than one year.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Construction projects paid for by the Public School Capital Outlay Council are included in the District's capital assets. No interest was included as part of the cost of capital assets under construction.

Property, plant, and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives:

| Assets | Years |
|-----------------------------------|-------|
| Land improvements | 20-50 |
| Buildings and improvements | 20-50 |
| Furniture, fixtures and equipment | 5-10 |

Alamogordo Municipal School District No. 1 Notes to Financial Statements June 30, 2013

NOTE 1. Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities and Net Position or Equity (continued)

Deferred Revenues: There are two sets of circumstances in which the District accrues deferred revenue.

- *Unearned revenue* Under both the accrual and the modified accrual basis of accounting, revenue may be recognized only when it is earned. If assets are recognized in connection with a transaction before the earnings process is complete, those assets must be offset by a corresponding liability for *deferred revenue*.
- Unavailable revenue Under the modified accrual basis of accounting, it is not enough that revenue has been earned if it is to be recognized as revenue of the current period. Revenue must also be susceptible to accrual (it must be both measureable and available to finance expenditures of the current fiscal period). If assets are recognized in connection with a transaction, but those assets are not yet available to finance expenditures of the current fiscal period, then the assets must be offset by a corresponding liability for deferred revenue. The District has recorded \$339,104 in deferred revenue related to property taxes considered "unavailable."

Compensated Absences: It is the District's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. Twelve-month employees may accumulate up to 20 days of vacation leave; any leave beyond these limits must be used by June 30th of the current contract year unless carryover approval is obtained from the Superintendent.

Qualified employees are entitled to accumulate sick leave. There is no limit to the amount of sick leave which an employee may accumulate; however, upon termination, sick leave is not paid out to the employee.

All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements. In the past, the liability has been paid from the general fund.

Accrued Payroll: In the fund financial statements, governmental fund types recognize the accrual of unpaid wages and benefits that employees have earned at the close of each fiscal year. The amount recognized in the fund financial statements represents checks that were held at year end in relation to employee's summer payroll.

Long-term Obligations: In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method or the straight-line method if the difference from the effective interest method is minimal. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Alamogordo Municipal School District No. 1 Notes to Financial Statements June 30, 2013

NOTE 1. Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities and Net Position or Equity (continued)

Fund Balance Classification Policies and Procedures: The District has implemented GASB Statement No. 54 and has defined the various categories reported in fund balance. For committed fund balance, the District's highest level of decision-making authority is the Board of Education. The formal action that is required to be taken to establish a fund balance commitment is a resolution of the Board of Education.

For assigned fund balance, the Board of Education or an official or body to which the School Board of Education delegates the authority is authorized to assign amounts to a specific purpose. The authorization policy is in governmental funds other than the general fund, assigned fund balance represents the amount that is not restricted or committed. This indicates that resources in other governmental funds are, at a minimum, intended to be used for the purpose of that fund.

For the classification of fund balances, the District considers restricted or unrestricted amounts to have been spent when an expenditure is incurred for the purposes for which both restricted and unrestricted fund balance is available. Also for the classification of fund balances, the District considers committed, assigned, or unassigned amounts to have been spent when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

Nonspendable Fund Balance: At June 30, 2013, the nonspendable fund balance in the general fund and food service fund are made up of inventory in the amounts of \$52,349 and \$29,959, respectively, that are not in spendable form.

Restricted and Committed Fund Balance: At June 30, 2013, the restricted fund balance on the governmental funds balance sheet is made up of \$1,679,608 restricted for providing transportation, instructional materials, food services, extracurricular activities and education to the students of the District, \$10,446,182 restricted for the purpose of erecting, remodeling, making additions to and furnishing school buildings and purchasing or improving school grounds and purchasing computer software and hardware for student use in public schools, providing matching funds for capital outlay projects funded pursuant to the Public School Capital Outlay Act [22-24-1 NMSA 1978], or any combination of these purposes, and \$4,574,096 restricted for the payment of principal and interest of the future debt service requirements. The District has also committed fund balance in the amount of \$1,123,169 for expenditures in the subsequent year.

Net Position: Equity is classified as net position and displayed in three components:

- a. Net investment in capital assets: Consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted Net Position: Net position is reported as restricted when constraints are placed on the use either by: (1) external groups such as creditors, grantors, contributors, or laws or regulation of other governments; or (2) law through constitutional provisions or enabling legislation. Descriptions for the related restrictions for net position restricted for "special revenue, capital projects, and debt service" are described on pages 31 and 60-63.
- c. Unrestricted Net Position: Net position that do not meet the definition of "Restricted" or "Net Investment in Capital Assets."

NOTE 1. Summary of Significant Accounting Policies (continued)

D. Assets, Liabilities and Net Position or Equity (continued)

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates. Significant estimates for the District are management's estimate of depreciation on assets over their estimated useful lives and the current portion of accrued compensated absences.

E. Revenues

State Equalization Guarantee: School districts in the State of New Mexico receive a 'state equalization guarantee distribution' which is defined as "that amount of money distributed to each school district to insure that the school district's operating revenue, including its local and federal revenues as defined (in Chapter 22, Section 825, NMSA 1978) is at least equal to the school district's program costs."

A school district's program costs are determined through the use of various formulas using 'program units' which take into consideration 1) early childhood education; 2) basic education; 3) special education; 4) bilingual-multicultural education; 5) size, etc. Payment is made from the public school fund under the authority of the Director of Public School Finance. The District received \$39,406,786 in state equalization guarantee distributions during the year ended June 30, 2013.

Tax Revenues: The District receives mill levy and ad-valorem tax revenues primarily for debt service and capital outlay purposes. Property taxes are assessed on January 1st of each year and are payable in two equal installments, on November 10th of the year in which the tax bill is prepared and April 10th of the following year with the levies becoming delinquent 30 days (one month) thereafter. The District recognizes tax revenues in the period for which they are levied in the government-wide financial statements. The District records only the portion of the taxes considered 'measurable' and 'available' in the governmental fund financial statements. The District recognized \$5,910,574 in tax revenues in the government-wide financial statements during the year ended June 30, 2013. Descriptions of the individual debt service and capital outlay funds contained in these financial statements include information regarding the authority for the collection and use of these taxes.

Transportation Distribution: School districts in the State of New Mexico receive student transportation distributions. The transportation distribution is allocated to each school district in accordance with formulas developed by the State Transportation Director and the Director of Public School Finance. The funds shall be used only for the purpose of making payments to each school district for the to-and-from school transportation costs of students in grades K through 12 attending public school within the school district. The District received \$1,381,982 in transportation distributions during the year ended June 30, 2013.

Instructional Materials: The Public Education Department (Department) receives federal mineral leasing funds from which it makes annual allocations to the various school districts for the purchase of educational materials. Of each allocation, seventy percent is restricted to the requisition of materials listed in the State Board of Education "State Adopted Instructional Material" list, while thirty percent of each allocation is available for purchases directly from vendors. Allocations received from the State for the year ended June 30, 2013 totaled \$470,884.

NOTE 1. Summary of Significant Accounting Policies (continued)

E. Revenues (continued)

SB-9 State Match: The Director shall distribute to any school district that has imposed a tax under the Public School Capital Improvements Act (22-25-1 to 22-25-10 NMSA 1978) an amount from the public school capital improvements fund that is equal to the amount by which the revenue estimated to be received from the imposed tax as specified in Subsection B of Section 22-25-3 NMSA 1978, assuming a one hundred percent collection rate, is less than an amount calculated by multiplying the product obtained by the rate imposed in the District under the Public School Capital Improvements Act. The distribution shall be made by December 1 of each year that the tax is imposed in accordance with Section 22-25-3 NMSA 1978. However, in the event that sufficient funds are not available in the public school capital improvement funds to make the state distribution provided for in this section, the dollar per program unit figure shall be reduced as necessary.

The District received \$306,589 in state SB-9 matching during the year ended June 30, 2013.

Public School Capital Outlay: The public school capital outlay fund was created under the provisions of Chapter 22, Article 24, NMSA 1978. The money in the fund may be used for: capital expenditures deemed by the public school capital outlay council to be necessary for an adequate educational program per Section 22-24-4(B); core administrative functions of the public school facilities authority and for project management expenses upon approval of the council per Section 22-24-4(G); and for the purpose of demolishing abandoned school district facilities, upon application by a school district to the council, per Section 22-24-4(L).

Money in the fund shall be disbursed by warrant of the Department of Finance and Administration on vouchers signed by the Secretary of Finance and Administration following certification by the council that the application has been approved.

The District received \$308,867 in state Public School Capital Outlay matching during the year ended June 30, 2013.

Federal Grants: The District receives revenues from various Federal departments (both direct and indirect), which are legally restricted to expenditures for specific purposes. These programs are reported as Special Revenue Funds. Each program operates under its own budget, which has been approved by the Federal Department or the flow-through agency (usually the New Mexico Public Education Department). The various budgets are approved by the local School Board and the New Mexico Public Education Department.

Alamogordo Municipal School District No. 1 Notes to Financial Statements June 30, 2013

NOTE 2. Stewardship, Compliance and Accountability

Budgetary Information

Budgets for the General, Special Revenue, Debt Service and Capital Projects Funds are prepared by management and are approved by the local Board of Education and the School Budget and Planning Unit of the Public Education Department. Auxiliary student activity accounts are not budgeted.

These budgets are prepared on the Non-GAAP cash basis, excluding encumbrances, and secure appropriation of funds for only one year. Carryover funds must be re-appropriated in the budget of the subsequent fiscal year. Because the budget process in the State of New Mexico requires that the beginning cash balance be appropriated in the budget of the subsequent fiscal year, such appropriated balance is legally restricted and is therefore presented as restricted fund balance.

Actual expenditures may not exceed the budget at the function (or "series") level. Budgets may be amended in two ways. If a budget transfer is necessary within a major category called a "series" this may be accomplished with only local Board of Education approval. If a transfer between "series" or a budget increase is required, approval must also be obtained from Public School Finance Division.

The budgetary information presented in these financial statements has been amended in accordance with the above procedures.

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. In April or May, the local school board submits to the District Budget Planning Unit (DBPU) of the New Mexico Public Education Department (PED) a proposed operating budget for the ensuing fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them. All budgets are submitted to the State of New Mexico Public Education Department.
- 2. In May or June of each year, the proposed "operating" budget will be reviewed and approved by the DBPU and certified and approved by the local school board at a public hearing of which notice has been published by the local school board which fixes the estimated budget for the school district for the ensuing fiscal year.
- The school board meeting is open for the general public unless a closed meeting has been called.
- 4. The "operating" budget will be used by the District until they have been notified that the budget has been approved by the DBPU and the local school board. The budget shall be integrated formally into the accounting system. Encumbrances shall be used as an element of control and shall be integrated into the budget system.
- 5. The District shall make corrections, revisions and amendments to the estimated budgets fixed by the local school board to recognize actual cash balances and carryover funds, if any. These adjustments shall be reviewed and approved by the DBPU.
- 6. The superintendent is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the school board and the State of New Mexico Public Education Department.

Alamogordo Municipal School District No. 1 Notes to Financial Statements June 30, 2013

NOTE 2. Stewardship, Compliance and Accountability (continued)

Budgetary Information (continued)

- 7. Budget change requests are processed in accordance with Supplement 1 (Budget Preparation and Maintenance) of the Manual of Procedures Public School Accounting and Budgeting. Such changes are initiated by the school district and approved by the DBPU.
- 8. Legal budget control for expenditures is by function.
- 9. Appropriations lapse at fiscal year end. Funds unused during the fiscal year may be carried over into the next fiscal year by budgeting those in the subsequent fiscal year's budget. The budget schedules included in the accompanying financial statements reflect the original budget and the final budget.
- Formal budgetary integration is employed as a management control device during the year for the General Fund, Special Revenue Funds, Debt Service Fund and Capital Projects Funds.

The School Board may approve amendments to the appropriated budget, which are required when a change is made affecting budgeted ending fund balance. New Mexico Administrative Code 6.20.2.9 prohibits the District from exceeding budgetary control at the function level.

The appropriated budget for the year ended June 30, 2013, was properly amended by the District's Board of Education throughout the year. These amendments resulted in the following changes:

| | Excess (deficiency) of | | | | | |
|-------------------------------------|------------------------|----------------------------|----|--------------|--|--|
| | | revenues over expenditures | | | | |
| | | Original Final | | | | |
| | | Budget | | Budget | | |
| Budgeted Funds: | <u> </u> | | | | | |
| General Fund | \$ | (1,296,428) | \$ | (1,378,628) | | |
| Bond Building Capital Projects Fund | \$ | (5,892,842) | \$ | (13,119,464) | | |
| Debt Service Fund | \$ | (2,757,301) | \$ | (3,412,758) | | |
| Other Governmental Funds | \$ | (1,269,900) | \$ | (3,625,593) | | |
| | | | | | | |

The District is required to balance its budgets each year. Accordingly, amounts that are excess or deficient are presented as changes in cash designated for expenditures, not as an excess or deficiency of revenues over expenditures.

The reconciliation between the Non-GAAP budgetary basis amounts and the financial statements on the GAAP basis for each governmental fund are included in each individual budgetary comparison.

Alamogordo Municipal School District No. 1 Notes to Financial Statements June 30, 2013

NOTE 3. Deposits and Investments

State statutes authorize the investment of District funds in a wide variety of instruments including certificates of deposit and other similar obligations, state investment pool, money market accounts, and United States Government obligations. All invested funds of the District properly followed State investment requirements as of June 30, 2013.

Deposits of funds may be made in interest or non-interest bearing checking accounts in one or more banks or savings and loan associations within the geographical boundaries of the District. Deposits may be made to the extent that they are insured by an agency of the United States or collateralized as required by statute. The financial institution must provide pledged collateral for 50% of the deposit amount in excess of the deposit insurance.

The rate of interest in non-demand interest-bearing accounts shall be set by the State Board of Finance, but in no case shall the rate of interest be less than one hundred percent of the asked price on United States treasury bills of the same maturity on the day of deposit.

Excess funds may be temporarily invested in securities which are issued by the State or by the United States government, or by their departments or agencies, and which are either direct obligations of the State or the United States or are backed by the full faith and credit of those governments.

By operation of federal law, beginning January 1, 2013, funds deposited in a noninterest-bearing transaction account no longer will receive unlimited deposit insurance coverage by the Federal Deposit Insurance Corporation (FDIC). Beginning January 1, 2013, all of the District's accounts at an insured depository institution, including all noninterest-bearing transaction accounts, will be insured by the FDIC up to the standard maximum deposit insurance amount of \$250,000.

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a deposit policy for custodial credit risk, other than following state statutes as put forth in the Public Money Act (Section 6-10-1 to 6-10-63, NMSA 1978). At June 30, 2013, \$22,230,540 of the District's bank balances of \$22,980,540 was exposed to custodial credit risk. \$14,314,154 was uninsured and collateralized by collateral held by the pledging bank's trust department not in the District's name, and \$7,916,386 was uninsured and uncollateralized.

NOTE 3. Deposits and Investments (continued)

The collateral pledged is listed on Schedule III of this report. The types of collateral allowed are limited to direct obligations of the United States Government and all bonds issued by any agency, District or political subdivision of the State of New Mexico.

The District utilizes internal pooled accounts for some of their programs and funds. Negative cash balances in individual funds that were part of the pooled accounts were reclassified as due to/from accounts in the combining balance sheet as of June 30, 2013. Funds 24101 through 25254 are federal funds and 27106 through 27171 are nonfederal funds. The following individual funds had negative cash balances as of June 30, 2013:

Alamogordo Municipal School District No. 1 Notes to Financial Statements June 30, 2013

NOTE 7. Long-term Debt (continued)

The District has entered into a capital lease agreement with LaSalle Bank National Association for energy efficient equipment in the amount of \$1,445,876 on May 8, 2004 with quarterly payments due, including interest, with a rate of 4.11%. The last maturity date is February 26, 2015.

The annual requirements to amortize the Energy Efficient Capital Lease outstanding as of June 30, 2013, including interest payments, are as follows:

| Fiscal Year Ending June 30, | F | Principal | I | nterest | Total Debt Service | | |
|--------------------------------|-----------------------|-----------|----|----------------|-----------------------|---------|--|
| 2014 2015 | \$ 167,618 133,190 | | \$ | 9,779 2,713 | \$ 177,39° 135,90° | | |
| | \$ | 300,808 | \$ | 12,492 | \$ | 313,300 | |

<u>Compensated Absences</u> – Administrative employees of the District are able to accrue a limited amount of vacation and other compensatory time during the year. During fiscal year June 30, 2013, compensated absences increased \$9,894 from the prior year accrual. In prior years, the general fund was typically used to liquidate such long-term liabilities. See Note 1 for more details.

NOTE 8. Risk Management

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; error omissions; and natural disasters, for which the District is a member of the New Mexico Public School Insurance Authority (NMPSIA). The Authority was created to provide comprehensive core insurance programs by expanding the pool of subscribers to maximize cost containment opportunities for required insurance coverage. The District pays an annual premium to the NMPSIA based on claim experience and the status of the pool. The Risk Management Program includes Workers Compensation, General and Automobile Liability, Automobile Physical Damage, and Property and Crime coverage. Also included under the risk management program are Boiler, Machinery and Student Accident Insurance.

The NMPSIA provides coverage for up to a maximum of \$500,000,000 for each property damage claim with a \$15,000 deductible per occurrence with a maximum annual deductible of \$60,000. General liability coverage is afforded to all employees, volunteers and school board members and the limit is subject to the NMSA Tort Claims Act on a per occurrence basis. The automobile and property liability limit is subject to the provisions of the Tort Claims Act. The crime limit is \$250,000 per occurrence for Faithful Performance. A limit of \$250,000 applies to Depositor's Forgery, Credit Card Forgery, and Money Orders. A limit of \$100,000 applies to Money and Securities, which include a \$750 deductible.

In case the NMPSIA's assets are not sufficient to meet its liability claims, the agreement provides that subscribers, including the District, cannot be assessed additional premiums to cover the shortfall. As of June 30, 2013, there have been no claims that have exceeded insurance coverage.

Alamogordo Municipal School District No. 1 Notes to Financial Statements June 30, 2013

NOTE 9. Pension Plan – Educational Retirement Board

Plan Description. Substantially all of the District's full-time employees participate in an educational employee retirement system authorized under the Educational Retirement Act (Chapter 22, Article 11 NMSA 1978). The Educational Retirement Board (ERB) is the administrator of the plan, which is a cost-sharing multiple-employer defined benefit retirement plan. The plan provides for retirement benefits, disability benefits, survivor benefits and cost-of-living adjustments to plan members (certified teachers, other employees of state public school districts, colleges and universities, and some state agency employees) and beneficiaries. ERB issues a separate, publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to ERB, P. O. Box 26129, Santa Fe, NM 87502. The report is also available on ERB's website at www.nmerb.org.

Funding Policy.

Member Contributions

Plan members earning \$20,000 or less are required by statute to contribute 7.9% of their gross salary. Plan members whose annual salary is over \$20,000 are required to make the following contributions to the Plan: 9.40% of their gross salary in fiscal year 2013, 10.1% of their gross salary in fiscal year 2014; and 10.7% of their gross salary in fiscal year 2015 and thereafter.

Employer Contributions

In fiscal year 2013, the District was required to contribute 12.4% of the gross covered salary for employees whose annual salary is \$20,000 or less, and 10.9% of the gross covered salary for employees whose annual salary is more than \$20,000.

In the future, the District will contribute the following percentages of the gross covered salary of employees: 13.15% of gross covered salary in fiscal year 2014 and 13.9% of gross covered salary in fiscal year 2015.

The contribution requirements of plan members and the District are established in State Statute under Chapter 22, Article 11, NMSA 1978. The requirements may be amended by acts of the legislature. The District's contributions to ERB for the fiscal years ended June 30, 2013, 2012, and 2011 were \$3,244,040, \$2,977,858, \$3,580,231, respectively, which equal the amount of the required contributions for each fiscal year.

NOTE 10. Post-Employment Benefits – State Retiree Health Care Plan

Plan Description. The District contributes to the New Mexico Retiree Health Care Fund, a cost-sharing multiple-employer defined benefit postemployment healthcare plan administered by the New Mexico Retiree Health Care Authority (RHCA). The RHCA provides health care insurance and prescription drug benefits to retired employees of participating New Mexico government agencies, their spouses, dependents, and surviving spouses and dependents. The RHCA Board was established by the Retiree Health Care Act (Chapter 10, Article 7C, NMSA 1978). The Board is responsible for establishing and amending benefit provisions of the healthcare plan and is also authorized to designate optional and/or voluntary benefits like dental, vision, supplemental life insurance, and long-term care policies.

Alamogordo Municipal School District No. 1 Notes to Financial Statements June 30, 2013

NOTE 10. Post-Employment Benefits – State Retiree Health Care Plan (continued)

Eligible retirees are: 1) retirees who make contributions to the fund for at least five years prior to retirement and whose eligible employer during that period of time made contributions as a participant in the RHCA plan on the person's behalf unless that person retires before the employer's RHCA effective date, in which event the time period required for employee and employer contributions shall become the period of time between the employer's effective date and the date of retirement; 2) retirees defined by the Act who retired prior to July 1, 1990; 3) former legislators who served at least two years; and 4) former governing authority members who served at least four years.

The RHCA issues a publicly available stand-alone financial report that includes financial statements and required supplementary information for the postemployment healthcare plan. That report and further information can be obtained by writing to the Retiree Health Care Authority at 4308 Carlisle NE, Suite 104, Albuquerque, NM 87107.

Funding Policy. The Retiree Health Care Act (Section 10-7C-13 NMSA 1978) authorizes the RHCA Board to establish the monthly premium contributions that retirees are required to pay for healthcare benefits. Each participating retiree pays a monthly premium according to a service based subsidy rate schedule for the medical plus basic life plan plus an additional participation fee of five dollars if the eligible participant retired prior to the employer's RHCA effective date or is a former legislator or former governing authority member. Former legislators and governing authority members are required to pay 100% of the insurance premium to cover their claims and the administrative expenses of the plan. The monthly premium rate schedule can be obtained from the RHCA or viewed on their website at www.nmrhca.state.nm.us.

The employer, employee and retiree contributions are required to be remitted to the RHCA on a monthly basis. The statutory requirements for the employer and employee contributions can be changed by the New Mexico State Legislature. Employers that choose to become participating employers after January 1, 1998, are required to make contributions to the RHCA fund in the amount determined to be appropriate by the board.

The Retiree Health Care Act (Section 10-7C-15 NMSA 1978) is the statutory authority that establishes the required contributions of participating employers and their employees. employees that were members of an enhanced retirement plan (state police and adult correctional officer member coverage plan 1; municipal police member coverage plans 3, 4 or 5; municipal fire member coverage plan 3, 4 or 5; municipal detention officer member coverage plan 1; and members pursuant to the Judicial Retirement Act) during the fiscal year ended June 30, 2013, the statute required each participating employer to contribute 2.5% of each participating employee's annual salary; and each participating employee was required to contribute 1.25% of their salary. For employees that were not members of an enhanced retirement plan during the fiscal year ended June 30, 2013, the statute required each participating employer to contribution 2.0% of each participating employee's annual salary; each participating employee was required to contribute 1.0% of their salary. In addition, pursuant to Section 10-7C-15(G) NMSA 1978, at the first session of the Legislature following July 1, 2013, the legislature shall review and adjust the distributions pursuant to Section 7-1-6.1 NMSA 1978 and the employer and employee contributions to the authority in order to ensure the actuarial soundness of the benefits provided under the Retiree Health Care Act.

The District's contribution to the RHCA for the years ended June 30, 2013, 2012, and 2011 were \$585,300, \$569,619, \$530,099, respectively, which equal the required contributions for each year.

Alamogordo Municipal School District No. 1 Notes to Financial Statements June 30, 2013

NOTE 11. Contingent Liabilities

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the District expects such amount, if any, to be immaterial.

The District is involved in various claims and lawsuits arising in the normal course of business. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the District's legal counsel that resolution of these matters will not have a material adverse effect on the financial condition of the District.

NOTE 12. Other Required Individual Fund Disclosures

Generally accepted accounting principles require disclosures of certain information concerning individual funds including:

- A. Deficit fund balance of individual funds. The District did not have any funds with deficit fund balances for the year ended June 30, 2013.
- B. Excess of expenditures over appropriations. The District did not have any funds with line item expenditures in excess of the budgeted appropriations for the year ended June 30, 2013.
- C. Designated cash appropriations in excess of available balance. The District did not have any funds with designated cash appropriations in excess of available balances for the year ended June 30, 2013.

NOTE 13. Concentrations

The District depends on financial resources flowing from, or associated with, both the Federal Government and the State of New Mexico. Because of this dependency, the District is subject to changes in specific flows of intergovernmental revenues based on modifications to Federal and State laws and Federal and State Appropriations.

Alamogordo Municipal School District No. 1 Notes to Financial Statements June 30, 2013

NOTE 14. Commitments

The District had multiple construction projects ongoing as of the year ended June 30, 2013 that are to continue into the following fiscal year. These projects are as follows:

NONMAJOR GOVERNMENTAL FUNDS

Alamogordo Municipal School District No. 1 Nonmajor Governmental Fund Descriptions June 30, 2013

Special Revenue Funds

ALL FEDERAL FUNDS – The Special Revenue Funds are used to account for grant funds received from the U.S. Department of Education through the New Mexico Public Education Department. These funds are to be used for purposes specified in the grant awards and may not be used for any other purpose.

Food Services (21000) – This fund is used to account for all financial transactions related to the food service operation. Authority for the creation of this fund is the National School Lunch Act, as amended, 42 U.S.C. 1751 1760, 1779.

Athletics (22000) – This fund is used to account for fees generated at athletic activities throughout the School District. The gate receipts are obtained from the general public and are expended in this fund. The authority for creation of this fund is 6.20.2 NMAC.

Title I IASA (24101) – This fund is used to account for a program funded by a Federal grant to assist the District in providing supplemental education opportunities for academically disadvantaged children in the area in which they reside. Funding is allocated to the District through the New Mexico Public Education Department. Authority for the creation of this fund is Part A, Chapter I, Title I of the Elementary and Secondary Education Act (ESEA) of 1965, as amended, Public Law 102-383.

Entitlement IDEA-B (24106) – This fund is used to account for a program funded by a Federal grant to assist the District in providing free appropriate public education to all handicapped children. Funding authorized by Individuals with Disabilities Education Act, Part B, Section 611-620, as amended, Public Laws 91-230, 93-380, 94-142, 98-199, 99-457, 100-639, and 101-476, 20 U.S.C. 1411-1420.

Preschool IDEA-B (24109) – The objective of the Assistance to States for the Education of Handicapped Children Program is to assist in providing free, appropriate public education to all disabled children from ages three to five. Federal revenues accounted for in this fund are allocated to the Schools through the New Mexico Department of Children, Youth and Families. Authority for creation of this fund is the Individuals with Disabilities Education Act (IDEA), Part B, Section 619, as amended, 20 U.S.C. 1419.

Education of Homeless (24113) – This fund is used to provide tutoring and remedial academic services to homeless children and youth within the District. Funding is by the New Mexico Public Education Department.

IDEA-B Private School Share (24115) – Under 34 CFR § 300.132-300.133, an LEA must spend a proportionate amount of their IDEA-B Basic Entitlement and, if applicable, Preschool sub-grant funds for special education and related services ("equitable participation services") to students with disabilities who are parentally placed in private elementary and secondary schools ("equitable participation services") located in the school district served by the LEA. The private schools must be nonprofit institutions. Children aged three through five are considered to be parentally-placed private school children with disabilities, only if they are enrolled in a private school that meets the definition of elementary school in 34 CFR §300.13. New Mexico State law defines an elementary school as "a public school providing instruction for grades kindergarten through eight, unless there is a junior high school program approved by the state board [department], in which case it means a public school providing instruction for grades kindergarten through six" 22-1-3(A) NMSA 1978.

Fresh Fruits & Vegetables (24118) – This fund is used to assist States, through cash grants, in providing free fresh fruits and vegetables to school children in designated participating schools beginning in school year 2004/2005. Authorized by National School Lunch Act, as amended, 42 U.S.C. 1769.

IDEA-B "Risk Pool" (24120) – Reallocation by PED based upon available amounts from Fund 24106 Entitlement IDEA-B. This fund accounts for a program funded by a Federal grant to assist the District in providing free appropriate public education to all handicapped children. Funding authorized by Individuals with Disabilities Act, Part B, Section 611-620, as amended, Public Laws 91-230, 93-380, 94-142, 98-199, 99-457, 100-639, and 101-476, 20 U.S.C. 1411-1420.

Title I 1003g Grant (24124) – The objective of this grant is to provide in conjunction with Title I funds for school improvement reserved under section 1003(a) of the ESEA. School Improvement Grants under section 1003(g) of the ESEA are used to improve student achievement in Title I schools identified for improvement, corrective action, or restructuring so as to enable those schools to make adequate yearly progress (AYP) and exit improvement status. Funding is by the Elementary and Secondary Education Act of 1965, as amended, Title I, Part B, Subpart 1.

COMPLIANCE SECTION

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITORS' REPORT

Hector H. Balderas New Mexico State Auditor The Office of Management and Budget The Board of Education Alamogordo Municipal School District No. 1 Alamogordo, New Mexico

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, the aggregate remaining fund information, and the budgetary comparison of the General Fund of the Alamogordo Municipal School District No. 1 (the District), as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and the combining and individual funds and related budgetary comparisons of the District presented as supplementary information, and have issued our report thereon dated November 1, 2013.

Internal Control Over Financial Reporting

In planning and performing our audit, of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs, that we consider to be significant deficiencies as findings FS 11-01 and FS 2013-001.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests did not disclose instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

District's Responses to Findings

The District's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The District's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

FEDERAL FINANCIAL ASSISTANCE

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE

INDEPENDENT AUDITORS' REPORT

Hector H. Balderas New Mexico State Auditor The Office of Management and Budget The Board of Education Alamogordo Municipal School District No. 1 Alamogordo, New Mexico

Report on Compliance for Each Major Federal Program

We have audited Alamogordo Municipal School District No. 1's (the District) compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2013. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Notes to Schedule of Expenditures of Federal Awards

Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (Schedule) includes the federal grant activity of Alamogordo Municipal School District No. 1, (District) and is presented on the modified accrual basis of accounting, which is the same basis as was used to prepare the fund financial statements. The information in this Schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in or used in the preparation of the financial statements.

Subrecipients

The District did not provide any federal awards to subrecipients during the year.

Non-Cash Federal Assistance

The District receives USDA Commodities for use in sponsoring the National School Lunch and Breakfast programs. The value of commodities received for the year ended June 30, 2013 was \$166,166 and is reported in the Schedule of Expenditures of Federal Awards under the Department of Agriculture Commodities program, CFDA number 10.553 and 10.555.

Alamogordo Municipal School District No. 1 Schedule of Findings and Questioned Costs June 30, 2013

B. FINDINGS-FINANCIAL STATEMENT AUDIT

FS 11-01 - Lack of Entity-Wide Controls (Repeated/Modified) - Significant Deficiency

Condition: During our process of understanding the District and its environment, we noted instances where elements of the District's internal control framework were nonexistent or deficient. The District's monitoring element was not documented, sufficiently designed, or implemented as we noted the following:

- Lack of review of vendor master file. The Procurement Specialist and the Director of Finance are the only employees that have access to the vendor master file to make changes, however the District does not review any changes made and changes could be made without the approval or knowledge of management.
- Lack of segregation of duties over the Purchase Order process. The Accounts Payable Clerk can re-open purchase orders
 after the Purchase Orders have been closed without additional management approval.
- Lack of proper access restriction over the Employee Database Master File and review of changes made. The Employee
 Database Master File is accessible by Payroll personnel and the Finance Director and no review of changes made are
 being done to ensure the file is accurate and complete and a change could be made without the approval or knowledge of
 management.
- Lack of review by management to ensure payroll runs are accurate and valid. The only review of payroll expenditures is performed by the payroll clerk who will also investigate any discrepancies.

Criteria: The COSO Internal Control Integrated Framework consists of five critical elements that must be present in carrying out the achievement objectives of an organization. These elements are known as the control environment, risk assessment, control activities, information and communication and monitoring. With these elements in place, the District can maximize its potential for achieving its performance targets and reduce the risk of loss of resources.

Effect: Without all of the five elements of the COSO Internal Control Integrated Framework present, the District is exposing itself to the risk of misappropriation of assets and does not have set processes in place to maximize the resources of the District to achieve the goals set forth by the District.

Cause: With the changes in management positions during the year, the District has not had the opportunity to update, implement, or change internal controls and processes to address all financial reporting aspects of the District.

Auditors' Recommendations: We recommend that the District incorporate all five elements of the COSO Internal Control Integrated Framework in their organization. In particular, there should be a mechanism in place to document the monitoring of the internal controls in place. We recommend that internal controls be addressed at both the entity level and activity level. We recommend that key management personnel attend a training class on internal control procedures, internal control implementation, and internal control monitoring.

Agency's Response: Management is aware of the need for improved internal controls and is striving to continually improve its processes. Management has been able to resolve many of these issues in the past two fiscal years.

Management has made a file of the 2012-13 vendors and will compare them to any changes in the 2013-14 vendor files and verify that the appropriate documentation is in place. In addition, access to re-opening purchase orders has been electronically restricted to the Purchasing Agent and the Director of Business and Finance only. The Accounts Payable staff had been formally informed that they were not to re-open purchase orders and had already discontinued the practice.

Unfortunately, because of the severe loss of funding the District is experiencing, the Business and Finance Department lost a full time position which makes implementing the above mentioned internal controls in payroll difficult. The District does not have the staff or the resources to fully implement a thorough and complete internal control system of checks and balances and maintain instructional integrity in the classroom. Management anticipates that this audit finding will continue as long as the District continues to lose funding. As mentioned before, the District is always striving for continual improvement.

Alamogordo Municipal School District No. 1 Schedule of Findings and Questioned Costs June 30, 2013

B. FINDINGS-FINANCIAL STATEMENT AUDIT (continued)

FS 2013-001 - Posting of District Activity in an Agency Fund - Significant Deficiency

Condition: During testwork over the District's Capital Assets, we noted the following:

- The District accounted for \$0.32 per mile usage for the use of the District vehicle, such as employees using the District vehicles for training, however the District recorded these revenues in an agency fund and not in the operational fund as the vehicles are owned by the District and the related expenses for fuel and maintenance are charged to the operational fund.
- From the usage charges of the District vehicles, the District purchased 2 vehicles out of non-budgeted funds from the Non-Instructional Educational Support fund (Fund 23000) that should have been budgeted and purchased out of the Operational funds of the District.

Criteria: NMAC 6.20.2.22 states that fixed assets related to specific proprietary or trust funds shall be accounted for in those funds. All other fixed assets shall be accounted for in the general fixed asset account group. PSAB Supplement 3, Uniform Chart of Accounts states that if the District legally owns the resources accounted for in the student activity funds, they should be accounted for in the General of Special Revenue Fund types.

Effect: The District incorrectly posted revenue generated by District activities to an agency fund and not in the operational fund where the related expenses occurred. The District also incurred capital outlay expenditures without the proper budgetary authority or approval by the New Mexico Public Education Department.

Cause: The District was separating the revenues generated by using the District vehicles in order to purchase replacement capital items for the District without using any operational funding.

Auditors' Recommendation: We recommend the that the District record the revenue generated by the use of District vehicles in the operational fund, or another approved fund, where the related fuel and maintenance expenditures are incurred as well as to budget for any additional purchases of District vehicles in a District fund with budgetary authority.

Agency's Response: The intent of the District was to generate revenues in order to replace District vehicles used for student transportation and maintenance. The District had interpreted the New Mexico Manual of Procedures for Public School Accounting and Budgeting (PSAB) Supplement 18 Student Activity & Athletics to read that Student Activity funds were typically used to account for monies raised by the students for the students, but not always. The District also interpreted the PSAB to read that if the school district legally owned the resources accounted for in student activity funds, they should be accounted for in the General or Special Revenue Fund type, but not always. In addition Supplement 18 references "District Funds" several times, which the District interpreted to mean that the District was allowed to have funds in the 23000 account.

In the future the District will account for all revenues generated by vehicle usage in the operational or general fund.
