No, but some questions are marked "Required" and must be answered before you can submit your form. The registration process is self-guided and informs you of any missing or incorrect information. You can update information for your current students and you can add new students.

What if I make a mistake?

If you would like to make a change prior to submitting the form, you can either navigate back to the page using the "Previous" and "Next" buttons or if you are on the Review page select the underlined field. If you have already submitted the form you will need to contact your student's school so they can make the changes for you.

I've completed the form, now what?

Once you have finished entering your information select "Submit." This will send all of the information you've entered to the school. If you cannot select this button you will need to make sure that you have answered all required questions.

What if I have more than one student in the district? Do I need to do this for each child?

Yes you will need to provide information that is specific to each child. We recommend that you complete and submit one form and then start another. This will allow you to "snap" (or share) selected family information, which saves you time.
